

## Local Government Pension Scheme

### Life after work

00:00

Pensions made simple: life after work.

00:05

When you start preparing for life after work, it's time to think about

00:09

how and when you'll take your LGPS pension.

00:12

You can choose to take it at any time between age 57 and

00:16

75,

00:18

or from 55 if you take it before April

00:21

2028, as long as you've been a member for at least

00:25

two years.

00:28

If you take your pension before your State Pension Age, it will be reduced.

00:32

If you take it after, it will be increased.

00:37

If your employer agrees, you can move gradually into retirement.

00:42

You could reduce your hours or take a less senior position and

00:46

take some or all of the pension you've already built up.

00:49

It's called flexible retirement.

00:53

Speak to your employer to see if this is an option.

00:57

If you have to retire early due to ill health at any age,

01:00

your pension is paid to you straight away.

01:04

Your pension is also paid straight away if you are made redundant from

01:08

age 57, or from age 55 if you are made

01:12

redundant before April 2028.

01:16

When you decide to take your pension, you can choose to swap part of

01:19

it for a tax-free lump sum.

01:23

For every £1 of pension you give up, you get

01:26

£12 of tax-free lump sum.

01:30

Visit the LGPS website to use our lump sum

01:34

calculator and for further information about the Scheme.
